

# TRENCH IT - TCT TRENCHER

## Features and Information

This is a PTO driven trencher. Driven via a reduction gearbox and chain drive this allows an optimum digging speed.

It is a very versatile and powerful trencher. It can be used with a conveyor system or can be used as a conventional trencher by adding a side auger attachment.

It is designed for tractors with horsepower (HP) from 40 – 70HP with hydrostatic transmission or creep gearbox transmission that does not exceed 0.3 kph or 0.12 miles/hr.

**Digging Depth:** Up to 1200mm

**Digging Width:** 100, 150, 200, 250, 300mm

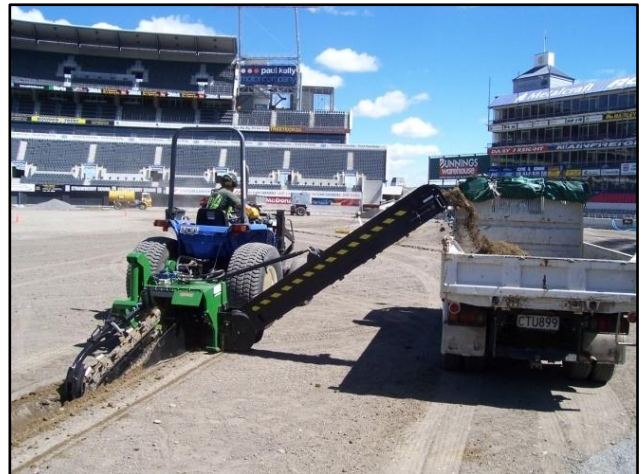

**Wear Parts:** Quality USA trenching parts, with tungsten carbide cutting teeth.

**Slip Clutch:** This protects tractor and trencher from undue shock loading.

**Spoil Handling:** Auger places soil neatly to one side, to allow easy access to trench.

**Crumber Bar:** Grades trench as you go.

**Conveyor System:** The soil is directed onto a conveyor, elevating it onto a small truck or trailer running alongside the trencher.

## TI Hopper

Used mainly for filling trenches.

Fast easy and efficient operation with hydraulic shute.

### Features:

- It can carry up to 2 cub mtrs of gravel.
- Hydraulic shute for gravel control.
- Rollers either side for easy operation
