

TRENCH IT TWT550 DRAINAGE TRENCHER

TWT550 is a powerful heavy duty trencher. It is used mainly in sports field drainage and Irrigation projects. The TWT550 has a unique double conveyor system allowing spoil to be elevated onto a trailer or truck running alongside the machine, or elevating conveyor can be folded back allowing spoil to be deposited along side of trench. Trencher wheel can be fitted with rock teeth set up or a standard earth teeth.
