

TCT TRENCHER

Sports field drainage

YOU WILL NEED:

- A 40 - 80 hp tractor with a hydrostatic transmission or very slow creeper box
- 3 point linkage, 540 RPM PTO output

Features of the TCT Trencher

This is a PTO driven trencher. Driven via a reduction gearbox and chain drive this allows an optimum digging speed.

It is a very versatile and powerful trencher. It can be used with a conveyor system or can be used as a conventional trencher by removing outward conveyor attachment.

It is designed for tractors with horsepower (HP) from 40 – 80HP with hydrostatic transmission or creep gearbox transmission that does not exceed 0.3 kph or 0.12 miles/hr.

THE DETAILS:

Digging Depth: Up to 1200mm

Digging Width: 100,150, 200, 250, 300mm

Wear Parts: Quality USA trenching parts, with tungsten carbide cutting teeth.

Slip Clutch: This protects tractor and trencher from undue shock loading.

Crumber Bar: Grades trench as you go.

Conveyor: The soil is directed onto a conveyor, elevating it onto a small truck or trailer running alongside the trencher.

TCTAG

Drainage and Irrigation

YOU WILL NEED:

- A 40 - 80 hp tractor with a hydrostatic transmission or very slow creeper box
- 3 point linkage, 540 RPM PTO output

Features of the TCTAG

The TCTAG has the same features as the TCT trencher less the side conveyor. This trencher is used specifically in land drainage and irrigation projects in the agriculture and horticulture sector.

THE DETAILS:

Digging Depth: Up to 1200mm

Digging Width: 100, 150, 200, 250, 300mm

Wear Parts: Quality USA trenching parts, with tungsten carbide cutting teeth.

Slip Clutch: This protects tractor and trencher from undue shock loading.

Crumber Bar: Grades trench as you go.

Laser Mounts: For mounting laser control system.

Conveyor: Discharges soil neatly to one side of trench.
